ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II

Dr. Robert K. Cowen

Bob Cowen is Associate VP of Research & Operations, Director of OSU's Hatfield Marine Science Center, and Professor in the College of Earth, Ocean, and Atmospheric Sciences. His research covers topics ranging from coastal fish ecology and early life history to fishery oceanography, larval transport, and population connectivity. He has worked off all coasts of the U.S., including the Aleutian Islands, as well as the Caribbean, Mediterranean, and the Antarctic. In his spare time, Bob enjoys woodworking at his coastal ranch where he tends to grazing animals ranging from Tibetan yaks to Painted Desert sheep and their guardian llamas.

DEAR OSU ALUMNI AND FRIENDS,

If getting up close to the place that inspired Charles Darwin's *The Origin of Species* is on your life list of travel adventures, then an expedition to the Galápagos is authentic wish fulfillment. You'll have encounters with the endemic wildlife that lacks an instinctive fear of humans, explore a vibrant undersea and observe diverse geological wonders, from stark volcanic landscapes to lush, green highlands.

Galápagos is ideal for active exploration for guests of all ages and activity levels. Every day will deliver new adventures—kayak along rocky shores watching for passing sea turtles, snorkel with playful sea lions, hike lava fields crowded with basking marine iguanas, take a sunset Zodiac cruise around islands teeming with birdlife or grab a paddleboard for an exhilarating, personal experience.

You will travel aboard the *National Geographic Endeavour II*, a 52-cabin expedition ship equipped with tools for exploration that let you experience the islands with all your senses. Share the adventure with an onboard certified photo instructor, an experienced team of naturalists and an undersea specialist who will enhance your understanding of this exceptional destination.

Make the most of your time and add an optional post-voyage land extension to Peru, exploring Machu Picchu, the Sacred Valley, Cusco and Lima. We hope you will join us to discover these magical places. **To make your reservation, please return the enclosed reservation form, email groups@expeditions.com or call 833-985-1261.**

Sincerely,

GALÁPAGOS—WHERE NATURE & MAGIC MEET

The power and relevance of our needs as humans to connect with nature cannot be underestimated. That connection is perhaps at its greatest level in Galápagos. The vast number of animals living in the famed archipelago is a major reason people choose to travel to this remote

part of the world. Where else on the planet can you get close to the wildlife in the context of no fear at all? This is a marvelous experience for the human spirit and the itinerary ensures that you will have it often—exploring the key islands in the archipelago and seeing the iconic species that make this region so unique.

You'll come eye-to-eye with the famous giant tortoises roaming in the wild. Encounter blue-footed boobies nesting along a trail. Stand paces away from courting red-throated frigatebirds. Watch your footing to avoid disturbing a sea lion lounging on a white sand beach. And swim with penguins, marine iguanas, and playful sea lions—experiences that can transform lives.

EVERY DAY IS FILLED WITH ADVENTURE

This expedition is designed to optimize your individual experience of Galápagos. What would you like to do today? Which of the many activities on offer—from walks to more energetic hikes, to Zodiac shore cruises, to paddling adventures—suits your interests today? From swimming with sea lions off a pristine arc of beach to snorkeling with a

passing flotilla of Pacific green sea turtles, a Lindblad Expedition is geared to get you off the ship and actively explore all the kaleidoscopic wonders of Galápagos. The choice is yours.

LIFE ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II

The *National Geographic Endeavour II* is a floating base camp for exploring the islands.

The ship accommodates just 96 guests in 52 thoughtfully appointed outside cabins, including dedicated solo cabins, connecting cabins, and suites. With an expansive open-air observation deck and lavishly windowed throughout the public spaces,

cabins, and suites, she ensures stunning views of the never-ending panorama and access to the natural world. Designed and equipped with the benefit of 50 years experience in Galápagos, she is the perfect platform for exploring these islands, with a fleet of onboard tools—snorkel gear for every guest, kayaks, and stand-up paddleboards for personal forays. *National Geographic Endeavour II* also carries a glass-bottom boat, granting everyone a window to the undersea, with a naturalist aboard to illuminate the vivid life there.

THE HEART OF THE EXPERIENCE

The warmth, humanity, and dedication of the expedition team, officers, and crew are unequalled. The engaging naturalists, many of whom were born and raised in the Galápagos, have a deep understanding of all aspects of the islands' natural and human history and are experts in ornithology, geology, zoology, the undersea, and conservation. Your time with them will greatly enhance your understanding of this remote archipelago.

A certified photo instructor is aboard to help you take advantage of the myriad photo opportunities. They are not only skilled photographers—trained to help you understand your camera and improve your skills—but also naturalists who can guide you in capturing the incredible wildlife behavior on display right in front of you.

GALÁPAGOS

10 DAYS/9 NIGHTS—ABOARD *NATIONAL GEOGRAPHIC ENDEAVOUR II*

Explore the legendary Galápagos Islands aboard our comfortable 52-cabin expedition ship, well equipped for actively experiencing the wildlife and wonders of the islands.

DAY 1: U.S./GUAYAQUIL, ECUADOR

Depart for Guayaquil and upon arrival, transfer to the Hotel Oro Verde Guayaquil.

DAY 2: GUAYAQUIL/GALÁPAGOS

This morning, fly to the Galápagos Islands (at an additional cost) and board *National Geographic Endeavour II*. After lunch, we begin our exploration of the islands and their diverse wildlife. (B,L,D)

DAYS 3–8: EXPLORING THE GALÁPAGOS

Listed below is a sample of islands we may visit during our expedition. Our expedition sails between Baltra and San Cristóbal and include visits to Santa Cruz and a careful selection of diverse islands. Our itinerary offers an optimal balance of wildlife, landscapes and experiences. All itineraries are subject to Galápagos National Park regulations. (B,L,D Daily)

SEYMOUR NORTE

Discover the largest colony of nesting magnificent frigatebirds in Galápagos, red- and blue-footed boobies, swallow-tailed gulls, and brown noddies. This small island is also home to land and marine iguanas and sea lions.

RÁBIDA

Land on a red sand beach on this volcanically varied island, where flamingos sometimes feed in a brackish lagoon, sea lions cavort on the beach, and pelicans nest on low-lying shrubs. Rábida is an inviting place to kayak, paddleboard, and snorkel. The sunsets are magnificent.

FERNANDINA

Brightly colored Sally Lightfoot crabs skitter across recent lava fields and sea lions play along the coast against the dramatic backdrop of a towering volcano at this youngest, most pristine island in the archipelago.

ISABELA

Explore the largest island in Galápagos, making up more than half the land area of the archipelago. Cruise by Zodiac, hike, and snorkel in the cool, rich waters that often draw whales and dolphins. Once frequented by whalers and pirates, this is the realm of enormous marine iguanas, abundant sea turtles, the only species of flightless cormorant in the world, and the only penguin species that inhabits the Equator. The Equator crosses the north of Isabela.

SANTIAGO

Santiago offers several places to explore, including Puerto Egas, where you'll follow a path along a series of tide pools of black basalt and arches with underwater caverns in search of Galápagos fur seals, marine iguanas, sea lions, and shorebirds. Also explore Buccaneer Cove, one of the places where Darwin landed. Swim, snorkel, kayak, and paddleboard along the coast of this fourth largest island.

SANTA CRUZ

Santa Cruz is not just the principal town in the islands, it is home to the Charles Darwin Research Station, where you learn about the science being done here. Visit the neighboring captive breeding program for Galápagos giant tortoises being conducted by their partners in conservation, the Galápagos National Park Service. Later after lunch in the highlands, search for wild Galápagos giant tortoises in their native habitat.

SAN CRISTÓBAL

Stroll, swim, and snorkel from a green-tinted beach and hike inland to a cinder cone for views of an impressive volcanic landscape. Encounter nesting blue and red-footed boobies, along with San Cristóbal mockingbirds and San Cristóbal lava lizards, both endemic to this easternmost island.

DAY 9: GALÁPAGOS/DISEMBARK/GUAYAQUIL

After breakfast, disembark the ship and fly to Guayaquil. The evening is at your leisure at the Hotel Oro Verde Guayaquil. (B)

DAY 10: GUAYAQUIL/U.S.

Depart Guayaquil this morning, arriving home the same day. (B)
