## BEAVER FACT CUBE

**A**

Beavers can chip down a tree in seven minutes or less.

**C**

Beavers use goggles just like we do. They have a set of eyelids that help them see underwater.

**B**

A beaver's teeth never stop growing. By constantly gnawing at wood, they are keeping their teeth from growing too long.

**D**

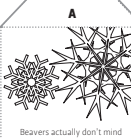

Beavers actually make great house guests. Each beaver lodge is equipped with a den for drying off after a day of swimming.

**E**

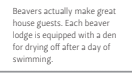

Beavers actually don't mind the cold. They are still active in the wintertime.

**F**
